

Vinotemp®

A PROUD HERITAGE OF EXPERIENCE & QUALITY

**TWO DRAWER WINE &
BEVERAGE COOLER**
VT-WINEDRAWER

OWNER'S MANUAL

YOUR WINE COOLER

This unit can be used for storage and/or service. It has two independent temperature zones allowing you to store beverages in the upper zone and wine in the lower zone.

SERVING WINES

Storing wines at the proper temperature is important. To preserve them as long as possible, wine should be stored at approximately 55° Fahrenheit. However, the chart below suggests the optimal drinking temperature for the different styles of wine.

°C	°F	Wine Style
19	66	Armagnac, Brandy, Cognac
18	64	Full Bodied Red wines, Shiraz
17	62	Tawny Port
15	59	Medium Bodied Red Wines
14	57	Amontillado Sherry
13	55	Light Bodied Red Wines
12	54	Full Bodied White Wines
11	52	Medium Bodied White Wines
10	50	Rosé, Light Bodied White Wines
9	48	Vintage Sparkling
8	46	Fino Sherry
7	45	Non Vintage Sparkling

General Operating Instructions

Remove all external and internal packaging from your wine cooler. Be sure that all parts have been included before discarding any packaging materials. You may want to keep the box and packing materials for use at a later date.

Upon receipt and inspection of unit, the supply cord must be replaced if it is damaged. Contact our customer service at 1-800-777-8466 or info@vinotemp.com.

- Let the unit rest UNPLUGGED for 24 hours once you have it placed in your home.

READ ALL INSTRUCTIONS BEFORE USING THIS APPLIANCE
-Save these instructions-

To register your product, visit:
<http://www.vinotemp.com/Warranty.aspx>
Register your warranty within 10 days of receiving the unit.
Please be sure to retain your proof of purchase.

Protect Your Investment with an Extended Warranty!

Add a New Leaf extended warranty to your order and have the security of knowing that if there should be a problem, even years in the future, New Leaf will be there to assist! Usable for any Wine Cellar or other electronic device manufactured by Vinotemp. Add this warranty to purchases made from vinotemp.com or other qualified vendors. Warranty must be registered within the first 10 days from original purchase.

Visit www.Vinotemp.com to purchase.

SERVICE & IMPORTANT NOTICE 16

IMPORTANT SAFETY INSTRUCTIONS

To reduce the risk of fire, electrical shock or injury when using your appliance, follow these basic precautions:

- Do not operate this or any other appliance with a damaged cord.
- Do not operate if housing is removed or damaged.
- Exercise caution and use reasonable supervision when appliance is used near children. Never allow children to operate, play with or crawl inside the appliance. Keep packing materials away from children.
- Before performing any maintenance or cleaning, ensure that the unit is unplugged or that the power line is disconnected.
- Do not clean appliance with flammable fluids. Do not store or use gasoline or other flammable vapors and liquids in the vicinity of this or any other appliance. The fumes can create a fire hazard or explosion.
- Exercise caution when moving and installing the unit. The cooler is heavy and may require two or more people when moving the unit to prevent strain or injury.
- Unit features a front exhaust system for freestanding or fully recessed applications.
- Locate the unit away from direct sunlight and sources of heat (stove, heater, radiator, etc). This unit is intended for indoor use only and must be installed in an area protected from the elements.
- This appliance is intended for use in a controlled ambient location such that the ambient temperature does not exceed 90°F.
- Place the appliance on a solid, level surface.
- Do not attempt to repair or replace any part of your appliance unless it is specifically recommended in this manual. All other servicing should be referred to a qualified technician.
- Connect to properly polarized outlets only. It is recommended that a separate circuit, serving only your appliance be provided. Use receptacles that cannot be turned off by a switch or pull chain. Be sure that the plug is fully inserted into the receptacle.
- To protect against electric shock, do not immerse appliance, plug or cord in water or other liquids. Avoid locating the unit in moist areas.
- Do not use this appliance for anything other than its intended purpose as described in this manual. For indoor, household use only.
- Do not operate the unit with wet hands, while standing on a wet surface or while standing in water.
- Do not use solvent-based cleaning agents or abrasives on the interior of the cooler. These cleaners may damage or discolor the interior.
- Keep fingers out of pinch point areas and be careful when closing doors if children are around.
- This appliance is designed for storing and cooling wines and beverages. Do not store perishable food or medical products within the unit.
- When disposing of refrigeration appliances, special handling is often required. It is the consumer's responsibility to comply with federal and local regulations when disposing of this product.
- **WARNING:** Risk of child entrapment and suffocation. Before you throw away this or an old unit, remove the door. Leave the shelves in place, so that children may not easily climb inside.

ELECTRICAL CONNECTION

Improper use of the grounded plug can result in the risk of electrical shock. If the power cord is damaged, frayed or shows cracks or abrasions across its length, have it replaced at an authorized service center.

For your protection, this unit is equipped with a 3-conductor cord set that has a molded 3-prong grounding-type plug, and should be used in combination with a properly connected grounding-type outlet.

- Do not under any circumstances cut or remove the third ground prong from the power cord supplied. For personal safety, this appliance must be properly grounded.
- The cord should be secured behind the unit and not left exposed or dangling to prevent accidental injury.
- A standard electrical supply (115V AC - 60Hz), properly grounded in accordance with the National Electrical Code and local codes and ordinances, is required.
- When a standard 2-pin wall outlet is encountered, it is your responsibility to have it replaced with a properly grounded 3-pin wall outlet.
- Never unplug the unit by pulling the power cord. To disconnect the appliance, always grip the plug firmly and pull straight out from the wall outlet. When moving the unit, be careful not to damage the power cord.
- The unit should always be plugged into its own individual electrical outlet with a voltage rating that matches the rating label on the unit.
- Do not pinch or kink the power supply cord.
- Repair or replace all power cords that have become frayed or damaged. Do not use a cord that shows cracks or abrasion damage along its length or at either end. When moving the appliance, be careful not to damage the power cord.

Extension Cord

CAUTION: It is strongly recommended that you do not use an adapter or an extension cord with this unit.

Model No.	VT-WINEDRAWER
Voltage	AC 115V
Frequency	60 Hz
Refrigerant	R134a/1.97 oz
Power Consumption	1.31 kw.h/24 h
Input Power	160W
Ambient Temperature Range	60°- 90°F
Control Temperature Range	40°- 72°F
Capacity	21 bottles & 24 cans
Net Weight	163.4 LBS
Gross Weight	174.1 LBS
Dimensions (W x D x H)	23 2/5" x 22 2/5" x 32 1/4"
Volume	140L

***Note:** This wine and beverage cooler is designed to store approximately 21 standard Bordeaux 750 ml bottles in the lower zone and 24 8-12oz cans in the upper zone. Storing large and/or oddly shaped bottles (including champagne and sparkling wine bottles) will decrease the capacity of your appliance.

INSTALLATION

BEFORE USING YOUR APPLIANCE

- Remove all packing material before using your appliance.
- **IMPORTANT:** Before connecting the unit to a power source, let it stand upright for approximately 24 hours. This will reduce the possibility of a malfunction in the cooling system from handling during transportation.
- Clean the interior surface with lukewarm water and a soft cloth.

INSTALLATION OF YOUR APPLIANCE

- This unit is designed for built-in installation, but can also be used freestanding.
- Position the unit in a dry and well-ventilated place. Avoid placing the cooler near any source of heat or moisture, or in direct sunlight.
- For freestanding installation, 5" of space at the back and both sides are suggested to ensure proper air circulation to cool the compressor and condenser.
- For built-in installation, leave a ¼" (6.35mm) space on each side and at the top, and 1-2" at the back of the wine cooler to ensure proper air circulation to cool the compressor and condenser. Also, be sure to not obstruct the front exhaust vent with anything as this may prevent the unit from performing properly.
- Place the appliance on a level surface strong enough to support it when it is fully loaded. To level the wine cooler, adjust the front leveling legs at the bottom of the unit.
- For best performance it is recommended that you install the appliance in a location with an ambient temperature between 60°-90°F. If the ambient temperature is above or below recommended temperatures, the performance of the unit may be affected.
- It is recommended that you do not install the appliance near an oven, radiator or other heating source. Direct sunlight may affect the acrylic coating and heat sources may increase electrical consumption.
- Do not store or install the appliance outdoors, in a garage, basement, or in moist areas.
- Plug the unit into an exclusive, properly installed-grounded wall outlet.
- Do not lift unit by the door handle.
- To level your appliance, adjust the front legs at the bottom of the appliance.

INSTALLING THE HANDLE

The stainless steel handle should be installed according to the following diagram:

OPERATING YOUR WINE COOLER

CONTROLS

POWER

To turn the appliance ON or OFF, touch the  button for 5 seconds.

LIGHT

To turn on the internal LED lighting, touch the  button on the left and/or right side.

UP

Used to raise (warm) the set temperature by 1°C or 1°F.

DOWN

Used to lower (cool) the set temperature by 1°C or 1°F.

°F/°C Selector

Select the temperature display setting in Fahrenheit or Celsius degree.

KEY LOCK

If 2 minutes pass without any keys being selected, the controls will lock automatically. To release the lock, touch the  and  marks at the same time for at least 5 seconds.

TEMPERATURE ZONES

The wine cooler has two temperature zones with a temperature range of 40°-72°F. The recommended temperature setting for each zone is:

- Lower Zone  between 40°-72°F
- Upper Zone  between 40°-72°F

There are three wine glass indicator lights located on the left side of the control panel. When the temperature is set between 40°-47°F, the right icon will glow. When the temperature is set between 48°-57°F, the middle indicator will glow. Finally, when the temperature is set between 58°-72°F, the left light will glow.

NOTE: The temperature set for the Lower Zone must always be the same or higher than the temperature set for the Upper Zone. For optimal performance, the set temperature of the two zones should differ by at least 4°F.

Indicates a set temperature between 58-72°F for red wine

Indicates a set temperature between 48-57°F for white wine

Indicates a set temperature between 40-47°F for sparkling wine

SETTING A TEMPERATURE

- The temperature will increase by 1°C or 1°F if you touch **UP**  once, or the temperature will decrease by 1°C or 1°F if you touch **DOWN**  once.

- To view the set temperature in either zone at any time, touch **UP** ▲ or **DOWN** ▼ and the set temperature will temporarily flash in the LED display for 5 seconds.

NOTE: When using the unit for the first time or after a long period of inactivity, there may be a variance of a few degrees between the selected temperature and the temperature indicated on the LED readout. This is normal due to the length of inactivity, and will correct itself after the unit runs for a few hours. If the unit is unplugged, has lost power or is turned off, wait 3 to 5 minutes before restarting the unit. The unit will not restart before this time delay.

DYNAMIC COOLING/SILENT MODES

The Dynamic Cooling feature enables the relative humidity inside the unit and the temperature to be distributed evenly around the interior so you can store all of your wine under the exact same ideal conditions. If you would like to use the unit to store wine long term, the dynamic cooling is a must. This will create a continuous climate in the cabinet which imitates that of a wine cellar.

In the Dynamic cooling mode, the interior fan circulates the inside air evenly until the set temperature is reached. Dynamic Cooling is the factory preset mode. To change to Silent mode, touch and hold the **UP** button for approximately five seconds. The wine cooler will beep three times to confirm silent mode is on. To change back to Dynamic Cooling mode, touch and hold the **DOWN** button for five seconds. The wine cooler will beep five times to confirm Dynamic Cooling mode is on.

STORING WINE

While bottles may vary in size and dimension, you can store approximately 21 standard Bordeaux 750 ml bottles in the lower zone and 24 8-12oz cans in the upper zone. Please note that bottle capacities are approximate maximums when storing traditional Bordeaux 750 ML bottles and include bulk storage.

CARE AND MAINTENANCE

CLEANING YOUR WINE COOLER

IMPORTANT: Always unplug the unit before cleaning or performing maintenance. Never use harsh cleansers or scouring pads to clean any part of the unit.

- Turn off the power, unplug the appliance, and remove all items including shelves.
- Wash the inside surfaces with a warm water and baking soda solution. The solution should be about 2 tablespoons of baking soda to a quart of water.
- Wash the shelves with a mild detergent solution.
- Wring excess water out of the sponge or cloth before cleaning control panels or any electrical parts.
- Wash the outside cabinet with warm water and mild liquid detergent. Rinse well and wipe dry with a clean soft cloth.
- Draw out the water box at the bottom and wash with a mild detergent solution.
- Do not connect or disconnect the electric plug when your hands are wet.
- Never clean appliance parts with flammable fluids. These fumes can create a fire hazard or explosion.
- Do not use solvent-based cleaning agents or abrasives on the interior. These cleaners may damage or discolor the interior.

DEFROSTING

- The unit defrosts automatically.
- The evaporator behind the rear wall of the unit defrosts automatically. The condensate collects in the drainage channel behind the rear wall of the unit and flows through the drainage hole into the drip tray by the compressor where it evaporates.

POWER FAILURE

Most power failures are corrected within a few hours and should not affect the temperature of your appliance if you minimize the number of times the door is opened. If the power is off for an extended period of time, proper steps should be taken to protect your contents.

INACTIVITY

If the unit will not be used for a period of less than three weeks, leave the cooler operating. If the period of inactivity is several months, remove all items and turn the unit off. Clean and dry the interior thoroughly. Leave the door open slightly to prevent any possible moisture build-up.

MOVING YOUR WINE COOLER

Before moving your cooler, first be sure to remove all items from the cooler.

- Always unplug the cooler before moving.
- Use two or more people to move and install the appliance. Failure to do so can result in back or other injuries.
- Securely tape down any loose items, such as shelves, inside the unit.
- Turn the adjustable leg up to the base to avoid damage.
- Tape the door shut.
- Ensure that the unit stays securely in the upright position during transportation. Protect the outside of the appliance with a blanket or similar item.

ENERGY SAVING TIPS

- The unit should be located in the coolest area of the room away from heat sources or direct sunlight.
- Ensure that the unit has proper allowances on all sides for proper ventilation. Never cover any air vents.
- Only open the cooler door for as long as necessary. Frequent opening of the door will affect internal temperature.

CAUTION: Failure to unplug the appliance could result in electrical shock or personal injury.

CIRCUIT DIAGRAM

TROUBLESHOOTING

You can solve many common cooler problems easily, saving you the cost of a possible service call. Try the following suggestions to see if you can solve the problem before contacting Vinotemp at info@vinotemp.com.

PROBLEM	POSSIBLE CAUSE
Wine Cooler does not operate	<ul style="list-style-type: none"> • Ensure unit is plugged in to electrical outlet. • Check if unit is turned off. • Check for a tripped circuit breaker or blown fuse.
Wine Cooler is not cold enough	<ul style="list-style-type: none"> • Check the temperature control setting. • External environment or ambient temperature may require a higher setting. • The door is opened too often. • The door is not closed completely. • The door gasket does not seal properly.
Wine Cooler turns on and off frequently	<ul style="list-style-type: none"> • The room temperature is hotter than normal. • The door is opened too often. • The door is not closed completely. • The temperature control is not set correctly. • The door gasket does not seal properly.
Wine Cooler makes too much noise or vibrates	<ul style="list-style-type: none"> • Check to ensure the unit is level. • The rattling noise may come from the flow of refrigerant. This is normal. • As each cycled ends, you may hear gurgling sounds caused by the flow of refrigerant in the unit. This is normal.
Wine Cooler door will not close properly	<ul style="list-style-type: none"> • Check to ensure the unit is level. • The gasket is dirty. • The shelves are out of position.
Wine Cooler light does not work	<ul style="list-style-type: none"> • Ensure unit is properly plugged in. • Check for a tripped circuit breaker or a blown fuse. • Check if the light switch is "OFF".
Display shows "EL" or "EH"	<ul style="list-style-type: none"> • The air temperature sensor in the corresponding temperature zone has failed.

TERMS OF SALE AND WARRANTY

Vinotemp International Corp. ("Seller") and the person or entity that acquires these goods from Seller ("Purchaser") hereby fully agrees to the following terms and conditions of the sale: Shipping fees are the responsibility of the Purchaser whether freight prepaid or freight collect. Seller assumes no responsibility for the goods sold to the Purchaser once the goods have left the Seller's premises, including, but not limited to, late delivery by the carrier, or for events caused by any difficulty carrier incurs in attempting to fit the goods into the Purchaser's designated location due to the size of the goods or any other reason. Purchaser assumes all responsibility for delivery, payment of freight, access, measurement, installation, hook-up, wiring, moving and storage of the goods. The transportation of all goods is subject to the terms and conditions which the carrier imposes on Purchaser including, but not limited to, additional charges imposed per flight of stairs, and/or additional charges resulting from the carrier's inability to safely and/or adequately use the building elevator to lift the goods. Any claim for damages incurred during shipment by the carrier of the goods are insured and handled directly with the carrier and must be noted at time of delivery. Any damages due to manufacture defects will be handled directly with Seller, subject to the Limited Warranty, below. If the item is damaged by the freight company, Purchaser may cancel the order only by paying for freight costs both ways and a 35% restocking fee.

All sales are final, and unless authorized in writing by the Seller, Purchaser may not return the goods, under any circumstance. If Purchaser refuses to accept the goods, under any circumstance, the Purchaser is liable for the return and cost of freight both ways, and if Seller does take back the goods, there will be a restocking/service fee that is 35% of the purchase price of the goods (product must be in original packaging). If Purchaser returns goods claiming that the goods are defective and goods are found to be in working condition by the Seller, Purchaser is liable for the return and cost of freight both ways plus an a restocking/service fee that is 35% of the purchase price of the goods. Built-to-Order products (including Cabinets, Racking, and Accessories) are non-returnable. Purchaser must notify Seller of non-conforming goods within four days of delivery, after which time all goods are deemed accepted. If an order has been placed and production has started, cancellation of your order will be a 15% charge. If Purchaser tenders payment with a check that has insufficient funds (NSF), or stops payment on a check or credit card for any reason, Purchaser agrees to pay for all costs associated with the Seller's collection or litigation of such a claim, including without limitation general and special damages, court costs and attorneys' fees. Finance charges begin the date of invoice. Collection fees plus NSF fee of \$50 will be added to your invoice, which you agree to promptly pay. Title to the goods does not pass until payment is received in full by Seller and Seller retains a security interest in the goods until they are paid for in full, however, from deliver, Purchaser will insure the goods and for any damages caused by the goods (eighteen percent (18%) annual rate). Purchaser assumes and must immediately pay any "credit card arbitration" fees which the credit card companies charge during a dispute. Any disputes not resolved within 30 days from the invoice date will be reported to credit reporting agencies.

LIMITED WARRANTY: Seller warrants that the goods will be free of defects in materials and workmanship as follows: Furniture style (wood) wine cabinets made in the U.S.: all cooling unit parts for a period of 5 (five) years; cabinetry and labor (uninstalled) for a period of 12 (twelve) months. Metal cabinet wine units: parts and labor for cooling system and cabinetry for a period of 12 (twelve) months. For Designer Series units: parts and labor for a period of 12 (twelve) months from date of sale, compressor parts 5 years. Thermoelectric Units: 90 (ninety) days (including Wine Coolers, Beer Dispensers, Humidor, Portofino Wood Cellars, and Refrigerators). Wine-Mate Split and Ducted Systems and other installed products and parts only for 1 year, no labor. Other Wine-Mate Cooling Systems are 5 years parts, 1 year labor. Wine Accessories, Racking Systems and Other items are not warranted. There is no warranty on parts purchased separately. If a purchaser claims a product is "defective", they must obtain a letter from a qualified refrigeration technician at the customers cost, to verify that the unit was installed properly, with proper ventilation and the unit is truly malfunctioning due to manufacture defect.

Removal or re-installation of unit is not included in warranted costs. Purchaser's exclusive remedy is limited, at Seller's option; to repair or replace defective part[s] with either new or reconditioned part[s]. Purchaser is responsible for shipping the unit pre-paid to designated facility and Seller will pay return shipping charges in the continental United States for items repaired under warranty within 12 (twelve) months from date of sale. Since the natural variation in texture, density, grain, color, tone and shade of wood is unavoidable; Seller does not guarantee the texture, color, tone or shade of the wood: nor does seller guarantee the colorfastness of wood or against peeling, chipping, cracking or scratching. Note: Unfinished wood is subject to warping; all wood surfaces must be sealed before placing cellar into service. Improper repair or placement of the unit will void the warranty. Any third party repair facility must be pre-approved in writing by Seller, before providing replacement parts under warranty.

IL Romanzo units: Warranty 90 (ninety) days. Replacement part 12 (twelve) months from the date of sale.

Non-New Units (Scratch & Dent/Refurbished/Floor Models), warranty for compressor units is 90 days from your dated invoice and 30 days for thermoelectric units (parts for function only, not cosmetic defects). These units are refurbished and sold as is; Purchaser assumes risks to the quality and performance of goods and assumes the costs of all necessary service or repair not covered herein.

Element Grills (via Element Products LLC), grills have a 1 year parts warranty and a thirty day limited parts warranty on grill accessories. Warranty period is from the date of sale (not from shipping, delivery, nor installation).

This Limited Warranty does not cover damage due to such things as accident, misuse, abuse, mishandling, neglect, acts of God, fires, earthquakes, floods, high winds, government, war, riot or labor trouble, strikes, lockouts, delay of carrier, unauthorized repair, or any other cause beyond the control of the Seller, whether similar or dissimilar to the foregoing. Seller is not responsible for any damages caused to Purchaser's property resulting from the goods. This limited warranty applies only inside the Continental US (Alaska, Puerto Rico, Hawaii and other territories/countries are not warranted.).

Purchaser understands and acknowledges that the goods sold here are wine cellars, cigar humidors, and/or other similar units which house wine or cigars or other items. Purchaser assumes all risk of using these units, including risk of spoilage, humidity variations, temperature variations, leaks, fire, water damage, mold, mildew, dryness and similar and any other perils that might occur.

Seller is not responsible for incidental or consequential damages, and there are no warranties, expressed or implied, which extend beyond the Limited Warranty described above. Warranty and liability are non-transferable. The implied warranties of merchantability and of fitness for a particular purpose are hereby expressly disclaimed. Some states do not allow the exclusion of incidental or consequential damages, or a waiver of the implied warranties of fitness and/or merchantability, so the above limitations may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from state to state. Seller disclaims any indemnification for claims of infringement of any intellectual property of protectable nature. In the event of any dispute between Seller and Purchaser arising out of or relating to these terms and conditions or to the goods sold generally, Purchaser must first file a written claim with Seller within ten days of the occurrence giving rise to the claim and wait an additional thirty days for a response before initiating any legal action. The sale and all terms are subject to California law. Any legal proceeding arising out of or relating to these terms and conditions or to the goods sold Purchaser shall bring, solely and exclusively in the County of Los Angeles. In no event may Purchaser initiate any legal proceeding more than six months after the occurrence of the event giving rise to the dispute. Seller may make non-payment claims until debt is paid in full.

The above terms and conditions are the only ones governing this transaction and Seller makes no oral representations of any kind. These Terms and Conditions can only be modified in writing, signed by both Purchaser and Seller.

SERVICE & IMPORTANT NOTICE

Upon receipt and inspection of unit, the supply cord must be replaced if it is damaged. Contact our customer service at 1-800-777-8466 or info@vinotemp.com.

The manufacturer has a policy of continuous improvement on its products and reserves the right to change materials and specifications without notice.
